San Jose Mission

The San Jose Mission is a residential community and education/social services campus for low-income Agricultural working families. There are 122 two, three and four bedroom rental units available for low-income families. Currently 80 of the units are for Farm Worker families and of the 42 units 40 are for Agricultural worker families with Rural Development rental assistance available. A resident committee coordinates activities and also form a Neighborhood Watch program with the aid of the On-site manager. Catholic Charities provides professional counseling, case management and life skills education for children, families, and individuals. Additionally, Catholic Charities provides Immigration Services, Housing Counseling and a Mobile Medical Unit staffed by volunteer physicians and nurses that provide free medical care to the families and the surrounding community.

The Mission also hosts a community partnership of health, education and social services agencies including: Redlands Christian Migrant Association, providing a Migrant Head Start Program for 90 children; School District of Hillsborough County offering an adult education and literacy program; an on-site parish nurse provided by St. Joseph's Hospital; and CNA classes offered by Leary Technical School.
